RE: APPLICATION FOR RESEARCH INTERN (SUMMER 2025) POSITION

Dear Hiring Manager,

I am excited to apply for the Research Intern (Summer 2025) position at Otter.ai. As a Master's student in Computer Science at San Francisco Bay University, specializing in AI and Machine Learning, I am eager to contribute my knowledge in Natural Language Processing (NLP) and deep learning to your mission of making conversations more valuable.

My recent experience as an Intern at Microsense Technology involved developing a Convolutional Neural Network (2D CNN) for static hand gesture detection, achieving 95% accuracy. Additionally, my work on a multimodal chatbot integrating LLMs has strengthened my ability to build NLP systems for real-world applications. I am proficient in both Python and its frameworks such as PyTorch and TensorFlow, and I have experience working in Linux environments.

Otter.ai's commitment to advancing Automatic Speech Recognition (ASR) and NLP aligns with my passion for developing innovative AI solutions. I am particularly interested in leveraging multi-modal data to enhance speech and language processing. I would appreciate an opportunity to work with your research team and contribute to the development of cutting-edge AI technologies.

I look forward to the possibility of discussing how my skills and experiences can add value to Otter.ai. Thank you for your time and consideration.

Best regards,  
Juma Robert John Paul
